

THE CONGRATULATING MESSAGE OF THE CHAIRMAN OF THE CHAMBER OF ADVOCATES OF THE RA TO THE PROSECUTION EMPLOYEE REGARDING TO THE PROFESSIONAL DAY

01.07.2014 12:59

Today prosecution employee's day is celebrating in Armenia. We, the representatives of the legal system, are meant to protect the rights of our citizens. And the role of the prosecutorial system and the prosecutor is very important and big during this way.

We, the advocates want to work in a Justice system where the sides of the lawsuit are armed with a wealth of knowledge and professionalism of a lawyer. And this leads to the development of both the prosecution and advocacy institutions. And as a result only the citizen will win.

Watching from the distance back on 96 years it is obvious that the prosecutorial system has had a phase of development but there are still omissions. The day is symbolic in the sense to speak also about the omissions and the ways of their solutions. The advocates as competitors can show active support to our colleagues.

I am sure that today we have different resources, human potential, which will give an opportunity to solve the problems of the society efficiently.

I congratulate you on a professional day, I wish you professional progress, productive work and public benefit activity.

The Chairman of the Chamber of the Advocates of the RA

Ara Zohrabyan
